

# Value-Added Program

## In appreciation of our dental partners.

Delta Dental of Idaho offers a Value-Added program to benefit and support participating dentists and their office staff. As your partner in dental health, we are committed to providing services to help your office operate smoothly and efficiently. More than 90 percent of Idaho dentists enjoy this partnership benefit.

## Providing Idaho with dental coverage for more than 38 years.

Delta Dental was created with the input of dentists and was the first company in the country to specialize in dental coverage. Today we are the largest and most experienced dental benefit carrier locally and nationally and continue to involve dentists on our board of directors. Similar to you, we share in a commitment to promote better oral health for customers and those in our community. As a non-profit organization, we provide substantial funds each year to support community outreach programs for Idahoans without dental coverage.

## Our team is here to help you.

Our friendly customer service team is here to help you! With more than 200 combined years of dental office experience, our knowledgeable staff is available to assist you and your patients. In addition, our online tools make it easy to access patient information and administer claims 24/7.

**Customer Service:** 208.489.3580 (Boise area)  
800.356.7586 (Toll-free)
