

# Value Added PROGRAM

## Accounts Receivable Consulting

Delta Dental of Idaho, in partnership with OnBehalf, an accounts receivable consulting firm, provides a free one hour seminar for dental providers and office staff each quarter. Each session is held onsite at Delta Dental as well as through an online webinar. To sign up for the next session, visit our website and click the OnBehalf registration link on the provider page.

Attendees will learn strategies to:

- Set clear payment expectations
- Efficiently utilize electronic claims submission, funds transfer, and remittance advice
- Shrink days to pay - time from service to payment
- Improve late stage collection efforts for maximum recovery

Additionally, after attending the seminar, providers receive a bonus offer on accounts receivable consulting services from OnBehalf.

## 457 Deferred Compensation

As a participating dentist with Delta Dental you can take advantage of the Delta Dental 457 Deferred Compensation Plan and set aside pre-tax dollars for retirement. Simply choose the amount to contribute from your contract payments into your account. You don't pay federal (and in most cases, state and local) income taxes on the money you contribute on a pretax basis. The money will be taxable when you withdraw it, when you may be in a lower tax bracket. The investment earnings on your contributions are not taxed until you take them out of your account, helping your money grow faster. For more information log in to our website and download the 457 Deferred Compensation brochure located on the "Quick Docs" section of the provider home page. Additionally, you can contact our Customer Service Team at (208) 489-3580 or [customerservice@deltadentalid.com](mailto:customerservice@deltadentalid.com).

## Sonicare Discounts

To place an order, call Sonicare directly at (800) 676-7664. Sonicare will ship the items to you at no charge and will invoice you directly. Tell them you are a Delta Dental of Idaho provider to receive the discount.

## Brighter Online Scheduling

Brighter Schedule™ is an easy-to-use service that works with your practice management system so Delta Dental members can easily make appointments online using our mobile app. Your office sets the open appointment times, the member sends you a request for an open time from Delta Dental's mobile provider directories and your office confirms these appointments. For more information visit:

[brighter.com/deltadental](http://brighter.com/deltadental) or call 888-328-5414.
