Choosing a dentist

To fully utilize the benefits from this Contract you must see a Delta Dental PPO or Delta Dental Premier network dentist.

What is the difference between PPO, Premier and non-participating dentists?

- **Delta Dental PPO or Premier participating dentist** means an Idaho dentist who has signed an agreement with Delta Dental to participate. The Delta Dental PPO or Premier participating dentist accepts Delta Dental’s payment and the patient’s copayment, if any, as payment in full.
- **Delta Dental non-participating dentist** means a dentist who has not signed an agreement with Delta Dental, or a Delta Dental participating plan in another state, to participate with Delta Dental. **Non-participating dentists can bill you for the difference between the amount charged by the dentist and the amount allowed by Delta Dental.**

Generally speaking, it can be more financially beneficial for you to partner with a PPO or Premier dentist.

You can find a listing of more than 1,000 Delta Dental PPO and Premier dentist locations in Idaho and hundreds of thousands of Delta Dental network dentists nationwide at deltadentalid.com.

Coverage for newborn/adopted children

- 1 A newborn child is covered at birth. You have 60 days to add the newborn to this Contract.
- 2 Legal adoptions or guardianships: Date of placement when the legal petition for adoption or guardianship becomes legally final. Placement means physical placement in the care of the adopting health plan subscriber. An adopted newborn, or newborn child placed with the adoptive subscriber more than 60 days after the birth of the adopted child shall be covered from and after the date the child is placed. An adopted newborn child placed with the adopting subscriber within 60 days of birth may be added to the adopting subscriber's plan as a newborn dependent. If physical placement is prevented due to the medical needs of the child, "placed" means the date the adopting health plan subscriber signs an agreement for adoption of the child and assumes financial responsibility for the child.
- 3 Coverage shall be provided for newborn children with congenital anomalies. "Congenital anomaly" means a condition existing at or from birth that is a significant deviation from the common form or function of the body, whether caused by a hereditary or developmental defect or disease. The term significant deviation is defined to be a deviation which impairs the function of the body and includes but is not limited to the conditions of cleft lip, cleft palate, webbed fingers or toes, sixth toes or fingers, or defects of metabolism and other conditions that are medically diagnosed to be congenital anomalies.

Any eligible dependent you want to cover under this Contract and who is not an adoptee or newborn as described above can be added during the Contract period only if a status change occurs. The dependent must be added within 30 days of the status change. You will be billed for the added dependent(s) on the bill when coverage begins.

If requested by Delta Dental, once per year, the subscriber shall submit medical reports confirming the child's initial or continuing total disability.

Coordination of benefits provision

All of the Benefits under this Contract, if applicable, will be subject to a coordination of benefits provision that is designed to provide maximum coverage, but not to exceed 100 percent of the total fee for a given treatment.

General

- 1 This coordination of benefits ("COB") provision applies to This Plan when an employee or the employee's covered dependent has health care coverage under more than one plan. "Plan" and "This Plan" are defined below.
 - a If this COB provision applies, you should look first at the order of benefit determination rules. Those rules determine whether the benefits of This Plan are determined before or after those of another plan. The benefits of This Plan: shall not be reduced when, under the order of benefit determination rules, This Plan determines its benefits before another plan; but
 - b May be reduced when, under the order of benefits determination rules, another plan determines its benefits first. The above reduction is described in "Effect on the benefits of This Plan."
- 2 **Definitions:**
 - a "Plan" means any of the following that provides benefits or services for medical or dental care or treatment. If separate contracts are used to provide coordinated coverage for members of a group, the separate contracts are considered parts of the same plan and there is no COB among those separate contracts.

- ① Plan includes: group and non-group insurance contracts, health maintenance organization (HMO) contracts, closed panel plans or other forms of group or group type coverage (whether insured or uninsured); medical care components of long-term care contracts, such as skilled nursing care; medical benefits under group or individual automobile contracts; and Medicare or any other federal governmental plan, as permitted by law.
- ② Plan does not include: hospital indemnity coverage or other fixed indemnity coverage; accident only coverage; specified disease or specified accident coverage; limited benefit health coverage, as defined by state law; school accident type coverage; benefits for non-medical components of long-term care policies; Medicare supplement policies; Medicare or any other federal governmental plans, unless permitted by law. Each contract for coverage under (1) or (2) is a separate Plan. If a plan has two parts and COB rules apply only to one of the two, each of the parts is treated as a separate Plan.

Each contract or other arrangement for coverage is a separate plan. If an arrangement has two parts and COB rules apply only to one of the two, each part is a separate plan.

- b "This Plan" means the part of this group Contract that provides benefits for health care expenses.
- c "Coordination of benefits" means a provision establishing an order in which plans pay their claims, and permitting secondary plans to reduce their benefits so that the combined benefits of all plans do not exceed total allowable expenses.
- d "Custodial parent" means the parent awarded custody by a court decree. In the absence of a court decree, the parent with whom the child resides more than one half of the calendar year without regard to any temporary visitation is the custodial parent.
- e "Primary Plan/Secondary Plan:" the order of benefit determination rules state whether This Plan is a Primary Plan or Secondary Plan as to another plan covering the person. When This Plan is a Primary Plan, its benefits are determined before those of the other plan and without considering the other plan's benefits. When This Plan is a Secondary Plan, its benefits are determined after those of the other plan and may be reduced because of the other plan's benefits. When there are more than two plans covering the person, This Plan may be a Primary Plan as to one or more other plans and may be a Secondary Plan as to a different plan or plans.
- f "Allowable expense" means a necessary, reasonable, and customary item of expense for health care when the item of expense is covered by this plan. However, This Plan is not required to pay for an item, service, or benefit which is not a part of This Plan's Contract. When a plan provides benefits in the form of services, the reasonable cash value of each service rendered will be considered both an allowable expense and benefit paid.

3 Order of benefit determination rules

- a When there is a basis for a claim under This Plan and another plan, This Plan is a Secondary Plan whose benefits are determined after those of the other plan, unless:
 - ① The other plan has rules coordinating its benefits with those of This Plan; and
 - ② Both those rules and this plan's rules, in subsection (b) below, require that this plan's benefits be determined before those of the other plan.
- b This Plan determines its order of benefits using the first of the following rules which applies:
 - ① Individual plans shall always be secondary to group plans.
 - ② The benefits of the plan which covers the person as an employee, member, insured, or subscriber (that is, other than as a dependent) are determined before those of the plan which covers the person as a dependent; except that: if the person is also a Medicare beneficiary, and as a result of

the rule established by Title XVIII of the Social Security Act and implementing regulations, Medicare is:

- a Secondary to the plan covering the person as a dependent; and
- b Primary to the plan covering the person as other than a dependent (for example, a retired employee).

3 Benefits for a dependent child whose parents are not separated or divorced shall be determined as follows:

- a The benefits of the plan of the parent whose birthday falls earlier in a year are determined before those of the plan of the parent whose birthday falls later in that year; but
- b If both parents have the same birthday, the benefits of the plan which covered one parent longer are determined before those of the plan which has covered the other parent for a shorter period of time.

However, if the other plan does not have the rules described in (a) above, but instead has a rule based upon the gender of the parent, and if, as a result, the plans do not agree on the order of benefits, the rule in the other plan will determine the order of benefits.

4 Benefits for a dependent child whose parents are divorced or legally separated shall be determined as follows. To the extent the plan has been notified by receiving a copy of the court decree:

- a If the specific terms of the court decree state that one of the parents is responsible for the health care expenses of the child, the benefits of the plan of that parent are determined first. The plan of the other parent shall be the Secondary Plan.
- b If the specific terms of the court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the plans covering the child shall be subject to the order of benefit determination contained in subdivision b (2) of this section.

If neither subparagraph a. nor b. applies, the order of benefits shall be determined in the following order:

- c The plan of the parent with primary legal custody of the child;
- d The plan of the spouse of the parent with the primary legal custody of the child;
- e The plan of the parent not having primary legal custody of the child; and
- f The plan of the spouse of the parent not having primary legal custody of the child.

5 The benefits of a plan which covers a person as an employee who is neither laid off nor retired (or as that employee's dependent) are determined before the benefits of a plan which covers that person as a laid off or retired employee (or as that employee's dependent). If the other plan does not have this rule, and if, as a result, the plans do not agree on the order of benefits, this paragraph shall be ignored.

6 Continuation coverage. If a person whose coverage is provided under a right of continuation pursuant to federal law (i.e., COBRA) or state law also is covered under another plan, the benefits of the plan covering the person as employee, member, or subscriber (or that person's dependent) shall be determined before the benefits under the continuation coverage. If the other plan does not have this rule and if, as a result, the plans do not agree on the order of benefits, this paragraph shall be ignored.

Ⓞ Longer/shorter length of coverage. If none of the above rules determines the order of benefits, the benefits of the plan which covered an employee, member, or subscriber longer are determined before those of the plan which covered that person for the shorter term.

4 Effect on the benefits of This Plan

- a This section applies when, in accordance with section “Order of benefit determines rules,” This Plan is a Secondary Plan as to one or more other plans. In that event, the benefits of This Plan may be reduced under this section. Such other plan or plans are referred to as “the other plans” in b below.
- b Reduction in This Plan’s benefits. The benefits of This Plan will be reduced to the extent that the sum of the benefits that would be payable for the allowable expense under This Plan in the absence of this COB provision; and the benefits that would be payable for the allowable expenses under the other plans, in the absence of provisions with a purpose like that of this COB provision, whether or not claim is made, exceeds those allowable expenses.

5 Right to receive and release needed information

Certain facts are needed to apply these COB rules. Delta Dental has the right to decide which facts it needs. It may get needed facts from or give them to any other organization or person. Delta Dental need not tell or get the consent of any person to do this. Each person claiming benefits under This Plan must give Delta Dental any facts it needs to pay the claim.

6 Facility of payment

A payment made under another plan may include an amount which should have been paid under This Plan. If it does, Delta Dental may pay that amount to the organization which made that payment. That amount will then be treated as though it were a benefit paid under This Plan. Delta Dental will not have to pay that amount again. The term “payment made” includes providing benefits in the form of services, in which case “payment made” means reasonable cash value of the benefits provided in the form of services.

7 Right of recovery

If the amount of the payments made by Delta Dental is more than it should have paid under this COB provision, it may recover the excess from one or more of:

- a The persons it has paid or for whom it has paid;
- b Another plan; or
- c The provider of service.

The “amount of the payments made” includes the reasonable cash value of any benefits provided in the form of services.
